We recently received your FAFSA application. Listed in either the parent or student sections of Additional Financial Information, there was a large dollar amount reported in "Taxable student grant and scholarship aid as reported to the IRS in your Adjusted Gross Income on your Federal tax return". You should only report a dollar amount in this question **IF** you were required to list the grants and scholarships on a federal tax return (in most cases, families are not required to report any grants and scholarships as taxable income on their tax returns).

What to do to next:

Please select the following statement regarding the amounts listed on your FAFSA.

_____ The amounts listed on the FAFSA regarding grants and scholarships listed on mine or my parent’s federal tax returns are correct and I/they did report grants and scholarships on the federal tax return. **Please send a signed 2014 IRS tax transcript and W2s for you/your parents to verify this.**

_____ We did not report any grants and scholarships on my or my parent’s federal tax return and we mistakenly reported this information on the FAFSA. **(Financial Aid will correct the information on your FAFSA for you).**

By signing this worksheet:

I (we) certify that all the information reported on this worksheet is complete and correct.
